RED BARK

SUPER WHITE

WALTON WHITE

PEACHES N' CREAM

SWISS CREAM

BRITISH GREEN

CUSTOM BLENDS

INTEGRA COLOR

As a part of the broader Integra family, we offer marble aggregates in a wide range of colors and sizes. For all terrazzo jobs, let us be your on-stop call for color and aggregate. Custom marble blends are available upon request. All aggregates come dried in 50 LB bags and Super Sacks. We currently offer aggregate sizes ranging from #0-#3.

Please contact us for samples & for mock-up support. Lead times are typically 3-4 weeks - depending on the season. All orders have a minimum size of 50 bags (1 pallet).

Color samples are guides only. DPP LLC does not warrant color matching to a color chart or to any color guide produced. Actual finished appearance will depend on job site conditions, lighting, installation technique, dye concentration, and types of concrete or terrazzo used. Verify actual appearance and compatibility with a test area before installing. No claims for color shade variation will be honored.
