

# Delta Performance Products

*Bringing order to complexity, one color at a time*

Delta Performance Products is a Covington, GA based contract manufacturer and supplier of high-quality color solutions serving the building materials industry. DPP offers color solutions in industries ranging from pool plaster to resinous flooring systems. With over 20 years of experience, DPP delivers consistency, precision, and performance through advanced color blending and technical expertise.

Delta Performance Products sources millions of pounds of pigments and raw materials from a network of global suppliers. Our decades long relationships and exhaustive QA/QC evaluations have helped us identify and evaluate the best pigment suppliers in the world. Our Turn-Key Sourcing Model allows customers to take advantage of our purchasing power, deep relationships and logistical expertise to access pigments at global, wholesale prices.
